LANGUAGES

English (**Fluent**)

Urdu

ABOUT ME

I'm a Computer Science student with hands-on experience in full-stack development through personal projects and a 3-month internship. I've built and deployed responsive web applications using React, Node.js, Express, and MongoDB. I can also integrate AI agents using the Gemini API to enhance user interaction and automation. I'm eager to apply my skills in a professional environment where I can contribute and grow as a developer.

WORK EXPERIENCE

Self-Taught Web Developer

Jan 2024 - Present

- Built multiple personal projects using React, Node.js, Express, and MongoDB.
- Completed a 3-month internship to gain practical industry experience.
- Developed and deployed full-stack apps like Learnify, English Learning Platform, and Pak AI.
- Hands-on experience with frontend UI design, backend API integration, and MongoDB schema design.
- Delivered responsive, high-performance websites and gained experience collaborating on real-world projects during internship.

Key Projects:

- Learnify Website – Full-stack educational site built with React, Node.js, Express, and MongoDB.
- English Learning Website – Content-based platform with user authentication and contact form (React + Node.js).
- Pak AI – AI-powered web app built with React and Node.js that integrates chatbot and modern UI components.
- E-commerce UI – Product showcase featuring Swiper.js carousel and dynamic cart functionality in React.
- Contact Form App – React + Express app with backend validation and MongoDB storage.
